claim or millsite, this will not be construed as violating the requirements for compactness and contiguity. If, during the selection period, the excepted mining claims or millsites are declared invalid, or under the State of Alaska mining laws are determined to be abandoned, the selection will no longer be considered as compact and contiguous. The corporation shall be required to amend its selection, upon notice from the authorized officer of the Bureau of Land Management, to include the lands formerly included in the mining claim or millsite. If the corporation fails to amend its selection to include such lands, the selection may be rejected.

(f) Eligible village corporations may file applications in excess of their total entitlement. To insure that a village acquires its selection in the order of its priorities, it should identify its choices numerically in the order it wishes them granted. Such selections must be filed not later than December 18, 1974, as to sections 12(a) or 16(b) selections and December 18, 1975, as to section 12(b) selections.

(g) Whenever the Secretary determines that a dispute exists between villages over land selection rights, he shall accept, but not act on, selection applications from any party to the dispute until the dispute has been resolved in accordance with section 12(e) of the Act.

(h) Village or regional corporations may, but are not required to, select lands within pending Native allotments. If the village or regional corporation selection omits lands within a pending Native allotment, this will not be construed as violating the requirements for compactness and contiguity. If, during the selection period, the pending Native allotment is finally rejected and closed, the village or regional corporation may amend its selection application to include all of the land formerly in the Native allotment application, but is not required to do so to meet the requirements for compactness and contiguity.
